

Trail Descriptions

All trails are marked with colored tree blazes approximately 20 feet apart. The Laurel Highlands are characterized by large deposits of Pottsville Sandstone which makes our trails very rocky. Please use caution and stay on the trails.

Red Trail: 1.2 mile loop, very strenuous

Following Jacob's creek and clambering up steep hillsides, this strenuous hike is a camp favorite. The trail goes by a cave and petrified log (look for the "pet log" sign.) Stop for a rest atop Split Rock, an ancient sandstone boulder with a spectacular view.

Purple Trail: 1.3 miles, very strenuous

Continuing on from the red trail, the purple trail winds, weaves and climbs to a beautiful mountaintop view atop Laurelville's Pine Run property.

*Please note that this hike includes a steep ascent (500 ft. over half a mile) with considerable erosion.

Yellow Trail: .72 miles, moderately strenuous

The yellow trail follows the ridge-top property boundary on a moderately difficult trail leading to Split Rock. Watch for signs of deer and the remnants of a lightning-struck tree.

White Trail: .48 miles, moderately strenuous

Leading from the motel, the white trail passes the low-ropes course and leads to Split Rock. Ruffed Grouse and migrating songbirds can be seen seasonally in the understory.

Orange Trail: .31 miles, moderate

The orange trail follows an old logging road which leads to the bottom of Sunset Hill. Along the trail the forest changes from secondary-growth hardwood to meadow, providing a unique setting for viewing wildlife.

Blue Trail: .32 miles, moderate

A wooded alternate route to sunset hill, the Blue Trail is a quiet walk through secondary-growth forest and brushy field. Lucky hikers may come across wild turkey.

Green Trail: .17 miles, moderate

Winding through rhododendron bushes along Jacob's Creek, the Green Trail is a hidden treasure. Stop to watch the water flow over a rocky stream bed while sitting in a secluded wooden bench swing.
