

Diet Request Form

Laurelville is committed to serving meals that meet the needs of as many guests as possible. Laurelville prepares buffet-style meals rather than "individual short orders" based on "food preferences." Our kitchen can accommodate the following common dietary needs with advance notice:

- *Gluten-Free (GF)*
- *Dairy-Free (DF)*
- *Vegetarian*
- *Vegan*
- *Nut Allergies*
- *Seafood Allergies*

Our menus are labeled to identify foods that are gluten-free, dairy-free, vegetarian, and vegan whenever possible.

Because we serve large groups in a shared commercial kitchen, we cannot accommodate highly specialized diets, multiple dietary restrictions, medically prescribed diets, or requests that require separate ingredient sourcing or preparation. While we make every effort to prevent cross-contact, we cannot guarantee an allergen-free environment.

Guests with complex dietary needs, severe food allergies, celiac disease requiring strict avoidance of cross-contact, or other specialized dietary requirements are encouraged to bring their own meals or supplemental foods. Refrigeration and microwave access are available upon request.

All guests assume personal responsibility for their dietary needs and communication of those needs. Please ask the kitchen staff if there are any ingredients that are unsafe for you, BEFORE eating your meal.

We appreciate your understanding as this policy allows our kitchen staff to continue providing quality meals to all our guests safely and efficiently.

Please return this form to your Group Leader who will forward it to us. (If it's not received two weeks prior to arrival, we cannot guarantee accommodations).

Please PRINT clearly.

Guest Name: _____

Group Name: _____

Arrival Date: _____ Departure Date: _____

Medical Diet Request (\$2 per meal per person)

Please checkmark your restriction(s).

- ☐ **Vegetarian**
- ☐ **Vegan**
